

AlphaSorb® Fabric Wrapped Sound Baffle

Description

AlphaSorb® Fabric Wrapped Sound Baffles are an affordable and architecturally decorative ceiling acoustic treatment, perfect for mid-size to large spaces with high ceilings. These acoustic baffles are designed to provide superior sound management because they offer two sides of sound absorption. They are ideal for commercial and institutional environments.

In addition to providing excellent sound quality, our fabric wrapped acoustic baffles are lightweight and simple to set up. Our baffles come with stainless-steel hooks and adjustable hanging cords for easy installation. They are available in three sizes: 4' x 1', 4' x 2', and 4' x 3', with thickness options of 1" or 2". They come standard in Guilford of Maine Whisper fabric, which adds a touch of elegance to any space.

Benefits

- High-quality, reasonably priced fabric-covered baffle
- Exceptional acoustic capabilities to minimize echo and reverberation, enhancing speech clarity
- Each baffle comes with two stainless-steel spring hooks and two 78" long, 1.5mm thick stainless-steel adjustable cords. (Our 4' x 3' baffle comes with three of each.)
- Easy installation and easy to maintain

Technical Characteristics

Size:	48" x 12" 48" x 24 48" x 36"
Thickness:	1" 2"
Materials:	6-7 lb. / ft ³ rigid fiberglass core with chemically hardened edges
