

AlphaSorb® Quick Ship Acoustic Ceiling Cloud

Description

The AlphaSorb® Quick Ship Acoustic Ceiling Cloud allows you to horizontally suspend sound absorbing panels to reduce echo and reverberation. As a DIY solution, this kit allows you to select the cloud quantities, sizes and colors. Simply choose the color and sizes you desire to acoustically treat your space.

Each cloud is wrapped with industry standard Guilford of Maine FR701 Style 2100 acoustically transparent fabric wrapped around a 6-7 pound per cubic foot acoustical core. Underneath the fabric is a high density fiberglass acoustical core for maximum sound absorption. With a Class A fire rating, these panels will meet building code requirements for both public and private facilities.

Technical Characteristics

Size:	2' x 2' 2' x 4' (nominal)
Actual Size:	23¾" x 23¾" 23¾" x 47½"
Thickness:	1" 2"
Density:	6-7 lb./cu. ft. fiberglass board
Finish:	Guilford of Maine FR701 Fabric
Colors:	10 Color Choices
Edge Detail:	Square Natural
Mounting:	Rotofast Ceiling Cloud Anchor
Fire Rating:	Class 1 or A per ASTM E84
NRC:	0.85 (1") 1.10 (2")
