

Cam Lift Hinge

Description

Our Cam Lift hinge is a mortise-style hinge for use with sound secure doors utilizing acoustical seals. The cam lifting action greatly improves the sealing characteristics along the door perimeter, lifting and lowering the door with the swing.

Cam Lift Hinges will not bind door closures when doors are hung within accepted industry standards. The hinges are cast in stainless steel and available for either left or right hinged doors.

Technical Characteristics

Size:	950 & 953: 4½" (w) x 5" (h) 955: 4½" (w) x 4½" (h)
Pin Diameter:	950: 1/2" 953: 3/8" 955: 9/16"
Finish:	Stainless Steel (Hardened tool steel, hardened & chrome finished to Rockwell C 60 to meet ASME/ANSI B 18.3 specs)
Swing Options	Left Hand Right Hand
Weight Capacity:	950: 500 lbs. for 3 hinges 953: 300 lbs. for 3 hinges 955: 200 lbs. for 3 hinges
Clearance:	Minimum clearance at head of frame is 3/16". For doors greater than 1¾", clearance is ¼".
Lift:	950 & 953: At 180" opening is 5/16" 955: At 180" opening is 3/16"
