

CrossPoint™ Sound Absorbing Fabric

CrossPoint™ LEED™ Contribution for New Construction

The **LEED™ Rating System Points Accrual Process** is broken down into many credit identifiers. However, the following categories are the only ones pertaining to wall covering qualifications for CrossPoint’s style CrossPoint — all falling within the Materials & Resources, Indoor Environmental Quality, and/or Innovation in Design categories.

Credit	Products/Service Data	CrossPoint™ LEED Contribution
Materials and Resources		
<p>MR Credit 4: Recycled Content Use materials with recycled content such that the sum of post-consumer recycled content plus one-half of the pre-consumer content constitutes at least 10% of the total value of the materials in the project for 1 point; or 20% of the total value for Credit 1 additional point).</p>	<p>CrossPoint™ offers products with recycled content. The level of recycled content may vary per style.</p>	<p>CrossPoint™ contains 50% recycled content.</p>
<p>MR Credit 5: Regional Materials Use building materials or products extracted, harvested or recovered, and manufactured within 500 miles of the project site for a minimum of 10% (1 point) or 20% (2 points) based on cost, of the total materials value.</p>	<p>CrossPoint™ wall covering products are manufactured in Dalton, Georgia. In order to acquire this LEED credit, the building site must be less than 500 miles from these locations. Details as to the specific location where raw materials are supplied from are unavailable at this time. A percentage of this product may be considered as recovered or extracted.</p>	<p>CrossPoint™ is manufactured in Dalton, GA 30720. 50% of product is recovered.</p>
