

PolyPhon™ Polyester Acoustic Panels

Description

Our PolyPhon™ Polyester Acoustic Panels are sound absorbing panels developed with environmental friendliness in mind. The panels are made from 100% polyester, 60% recycled fiber, and are 100% recyclable. PolyPhon™ Panels offer many environmental advantages and are a good alternative to a traditional fabric wrapped fiberglass panel.

PolyPhon™ Polyester offers sound absorption ratings that are completely comparable to fiberglass acoustical board. The core material is durable enough to withstand the force of a basketball, yet may be pierced by a thumb tack for use as a tack board. The abuse resistant polyester is an excellent choice for use high traffic areas in athletic facilities, offices, schools, multipurpose rooms and just about anywhere.

Features

- Formaldehyde free
- No chemical irritants
- Odor and dust free
- 60% recycled content /100% recyclable
- Impact resistant /Tack-able

Mounting

Construction adhesive and/or mechanical fasteners as appropriate (Installation hardware to be provided by installer).

Technical Characteristics

Size:	2' x 4' 4' x 8'
Thickness:	1" 2"
Material:	100% Polyester Fiber (60% PET-Recycled Fiber, 40% PET Virgin Fiber)
Density:	7 lbs / ft ³ (1") 5 lbs / ft ³ (2")
Colors:	White Beige
Fire Resistance:	Class 1 per ASTM E843
NRC:	0.70 0.90 0.95 (see chart)

Sound Absorbing Performance

Thickness	Mount	125 Hz	250 Hz	500 Hz	1000 Hz	2000 Hz	4000 Hz	NRC
1"	Type A	0.08	0.20	0.59	0.94	1.04	1.02	0.70
1"	Type E400	0.44	0.80	0.73	0.99	1.00	0.97	0.90
