

PrivacyShield® Ceiling Tile Barrier

Privacy Shield Tile Backer LEED Credit Contribution

Acoustical Solutions designs and distributes environmentally responsible building materials to create high-quality and green, sustainable products.

LEED 2009/v3 to LEED v4 Cross Reference Table is provided below.

Acoustical Barrier products may help contribute to the following LEED credits:

- MR Credit 2: Construction Waste Management — all products and packaging are recyclable, reducing landfill need.
- MR Credit 5: Regional Materials — products are produced in New Jersey, zip code 07080.
- IEQ Prerequisite 3 (Schools): Minimum Acoustical Performance Products reduce noise intrusion and control sound transmission.
- IEQ Credit 4.1: Low Emitting Materials — all Privacy Shield mass loaded products are non-VOC emitting.
- IEQ Credit 9 (Schools): Enhanced Acoustical Performance
- IEQ Credit 10 (Schools): Mold Prevention — Resistance to Mold Growth, ASTM D3273, highest resistance rating of 10, no visible growth.
- ID Credit 1: Innovation in Design — may qualify for this strategy on a project by project basis.

LEED 2009 v3 New Construction	LEED v4 Building Design & Construction (LEED BD+C)
MR Credit 2: Construction Waste Management	MR Credit: Construction and Demolition Waste Management
MR Credit 5: Regional Materials	MR Credit: Building Product Disclosure and Optimization - Sourcing of Raw Materials
IEQ Prerequisite 3 (Schools): Minimum Acoustic Performance	EQ Prerequisite (Schools): Minimum Acoustic Performance
IEQ Credit 4.1: Low-Emitting Materials	EQ Credit: Low Emitting Materials
IEQ Credit 9 (Schools): Enhanced Acoustical Performance	EQ Credit: Acoustic Performance
IEQ Credit 10 (Schools): Mold Prevention	EQ Credit: Indoor Environmental Quality, Thermal Comfort
ID Credit 1: Innovation in Design	IN Credit: Innovation
