

Rotofast Polyester Cloud Anchor

Description

Rotofast Polyester Cloud Anchors are a fast and secure solution for polyester core acoustical panel installations on ceilings. These anchors reduce installation time, are easy to use and simple to teach others to use. The patent pending Rotofast Polyester Cloud Anchor is designed for polyester acoustical cloud panels that are 1", 2" or thicker panels.

Features

- High strength styrene eye bolt
- Non-reactive: will not chemically react with polyester binders
- For use with polyester core acoustical panels in a cloud formation
- Pullout strength exceeding 50 lb.

Technical Characteristics

Size:	2" diameter
Material:	High strength styrene
Pull-Out Strength:	50+ lb in polyester board
